Specialty Council Chair

ABPTS American Board of Physical Therapy Specialties

Dear Specialist:

Congratulations once again from the American Board of Physical Therapy Specialties (ABPTS) on your recertification as a board-certified clinical specialist.

Enclosed is your certificate, which was printed based on information received from you and/or information in our specialist certification database. Bear in mind that we do not include the credential that is being awarded after an individual's name. It is standard policy for certifying bodies to issue certificates without the credential that is being specifically awarded at that time, similar to the standards imposed by educational institutions in their issuing of degrees.

Please note that APTA House of Delegates policy HOD P06-14-08-18, Principle II limits the use of abbreviated designations after a physical therapist's name, so your credential cannot be listed as such on your certificate.

Certification pins are being sent in a separate mailing.

If you would like additional copies of your certificate, go to your application where you can order additional copies online at <https://abptsportal.apta.org>

If you note any error in your certificate printing based on your previous request, please contact the specialist certification program staff at spec-recert@apta.org or at 703-706-3390.

Sincerely,

Recertification/MOSC Manager
